

An abstract background featuring a dark green, textured surface. Overlaid on this are diagonal bands of gold-colored text. The word "HARBORFIELDS" is repeated in a large, bold, sans-serif font, slanted upwards from left to right. Below it, the word "SHARBFIELD" is also repeated in a similar font and orientation. The text is slightly out of focus, giving it a layered, ethereal appearance.

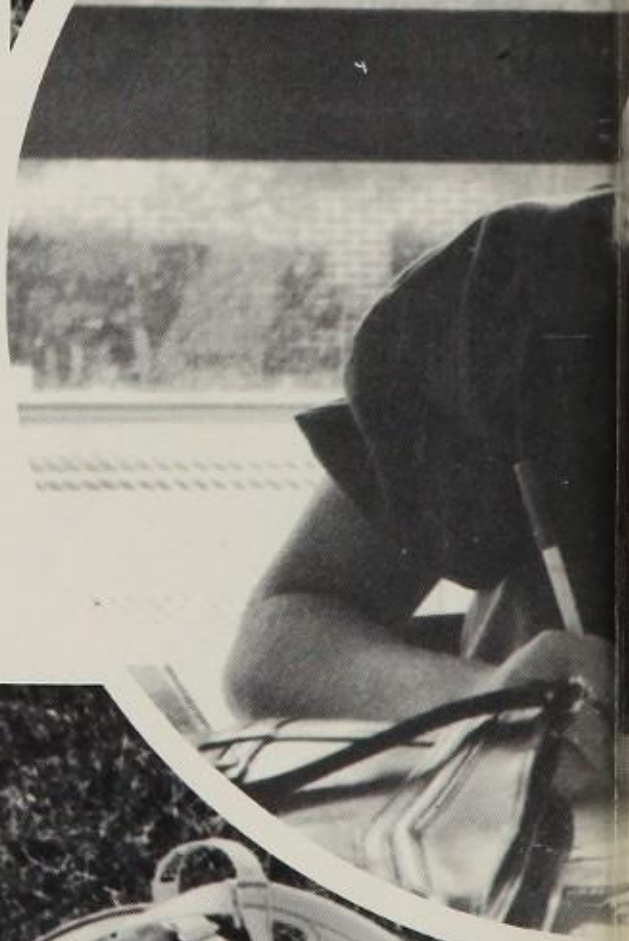

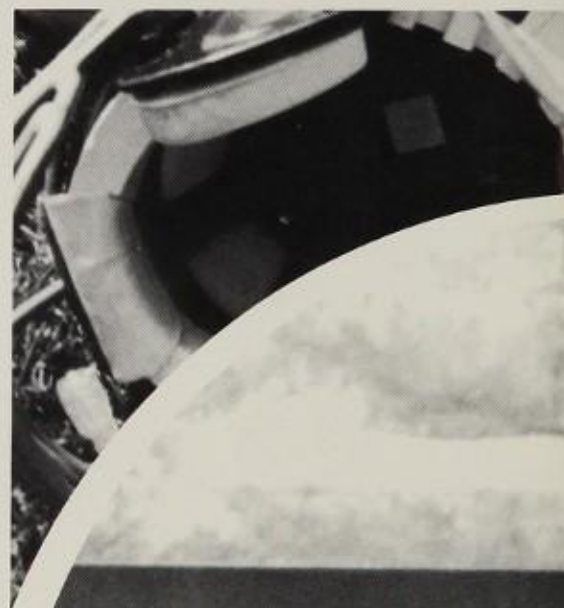

time and memory are relative. different for
everyone, yet excellent things to have — both.
inside the pages of this book it's always
1984 . . .

time reverts, memory comes alive . . .

Harborlight 1984 is dedicated to . . . William Thoelen

A true teacher of many things; a good friend to all. For your fine qualities that made you so special to us. With these few words and little space we say,

HIGH SCHOOL ADMINISTRATION

Dear Seniors:

In future years when you are looking through these pages, recalling funny incidents and remembering good friends, I hope another thought will come to mind.

You were fortunate to have attended school in a community that believed in and supported a good education. In return, you can as an adult be an activist in your community to provide that same opportunity for your young people.

Sincerely,
Richard Taylor

Alternative School Executive Board

From L to R: Ira Einhorn, Vice President, Ed Meyers, Vice President, Jim Watson, President, Craig Belanoff, Treasurer.

Our program objectives are two-fold. ASP provides an alternative opportunity for students to obtain their high school diploma in a manner which will stimulate and develop their learning potential and social abilities. ASP also assists students in cultivating survival skills so as to successfully and productively function in society. ASP students are awarded the regular Harborfields High School diploma upon completion of graduation requirements.

The ASP is a "just community" as developed by L. Kohlberg in his theories of Moral Development. The just community operates on the basis of every member's having an equal voice in decisions concerning the program's structure, activities, student discipline and overall operation. Moral development theory as applied to this school setting, is an informal, but conscious effort on the part of the staff to help students recognize and practice their sense of right, fairness, and human dignity. ASP has been granted the authority to establish policies, rules and regulations for the program by the Board of Education. However, all ASP policies, rules and regulations are subject to administrative review.

All ASP students must be residents of the Harborfields School District. ASP is a completely voluntary program. Parental consent is required for admission.

JUNE 24th, 1984

Today is the first day of the rest of your life. Today you are re-born. I have known many of you for the last three years and will think of you fondly for many years to come. My wish for you is that your life be filled with happiness, joy and love, and crowned with success. When you look back at the time you have spent on this step-ladder called Harborfields, remember only the good times and go forth into the sunrise with confidence.

With love,

Mr. and Mrs. John Shuttleworth
